EDUCATION

Bina Nusantara University – Computer Science Undergraduate Student **Expected Graduation: August 2028**

- **Cumulative GPA**: 3.69/4.00
- **Relevant Coursework**: Software Engineering, Software Architecture, Web Programming, Object-Oriented Programming (OOP), Database Technology, Mobile Hybrid Solution.

SUMMARY

Computer Science undergraduate with experience in end-to-end software development and solid foundation in system architecture and software design. Skilled at creating web applications and backend systems using React, TypeScript, Node.js and PostgreSQL. Experienced in leading development projects and working collaboratively within teams. Strong communication, problem solving and organizational skills.

EXPERIENCE

Kamunesia Media Arta **September 2025 – Present**

Software Engineer | Part-time

- **Managed the end-to-end development** of full-stack web applications, from **system architecture** and technology selection to development and deployment.
- Designed and developed scalable systems using **React.js, Node.js, and PostgreSQL**, while managing **deployment and production** environment configurations.
- Developed and maintained **RESTful APIs, databases, and system integrations** to support reliable and maintainable applications.
- **Worked with and coordinated the development team** to manage technical tasks, maintain clean code, and deliver solutions based on project requirements.

Menara Tirza Christian School **April 2024 – June 2024**

IT Support Intern | Internship

- Deployed and configured new computer units in school labs to ensure full academic readiness, while providing on-site IT support to resolve hardware, software, and network issues for staff and teachers.

PROJECTS

Kamunesia Media Arta Web – Corporate Web Platform

(React.js, Node.js, PostgreSQL, REST API, DevOps)

- Designed and developed the **full-stack web application** using **React.js, Node.js, and PostgreSQL**, including **RESTful API** development and database implementation.
- Managed deployment, server infrastructure, and database to support the production application.

GKGS APP – Church Member App

(Flutter, NestJS, PostgreSQL, Supabase, REST API)

- Developed a **full-stack mobile application prototype** using **Flutter, NestJS, and PostgreSQL**, implementing features such as QR attendance, church information, prayer and testimonies, digital Bible, and digital offerings.

Picverse – Photo Sharing & Gallery Platform

(NestJS, TypeScript, PostgreSQL, REST API)

- **Architected** and **developed** a modular, **scalable backend service** using **NestJS**, enforcing strict separation of concerns, dependency injection, and type-safe data access with **Prisma ORM** and **PostgreSQL**.

ORGANIZATION EXPERIENCE

Journalistic Activist **November 2025 – Present**

Nippon Club BINUS University

- Produced and published journalistic articles, copywriting, and event coverage for Nippon Club.

Media and Communications Activist **February 2025 – Present**

Persekutuan Oikumene BINUS University

- Managed organizational media, content publication, event documentation, and team coordination.

SKILLS

Languages: TypeScript, Java, JavaScript, HTML, CSS, C, SQL, Python
Tools & Technologies: Git, PostgreSQL, Prisma, Supabase, Postman, Figma
Frameworks & Libraries: React.js, Node.js, NestJS, Express.js, Tailwind CSS
